Getting fit to ski!

Not only do you need to train your muscles, skiing and boarding require cardiovascular, strength and flexibility. If you're not very active, to get ready for the the ski trip you will need to start to think about your fitness about 6-12 weeks beforehand to make sure that you build up enough strength in time. Think about coming to running club or fitness club, maybe join the gym?

What to pack for the ski trip

Hand luggage:

- Passports + EHIC card (your teacher will carry these)
- Currency - Around 80 - 100 euros
- Wallet - don't forget to tell your bank if you are travelling abroad (if you have a card)
- Snacks for the journey - your journey to your ski resort can be long and tiring, especially if you have been up since the early hours of the morning. Taking some sandwiches or snack bars in your hand luggage
- Magazines, games, iPads, etc for entertainment on your journey. Similar for the need for snacks, this can be a long journey so be prepared to need some fun if you get bored easily. Don't forget external battery packs to recharge phones while travelling

- Jeans or trousers for when you aren't skiing
- Tops and jumpers for when you aren't skiing
